

LEADERS IN PLANT RELIABILITY AND PRE-COMMISSIONING SERVICES

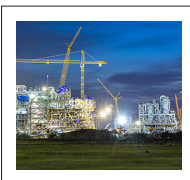

ExxonMobil's expanded Mobil ServSM offering now includes a one-stop solution for all plant commissioning, reliability and integrated service needs through a partnership with Reliable Industrial Group (RIG). Mobil ServSM and RIG engineers work with customers to deliver a full range of on-site services including:

Plant Reliability Services

A leader in data-driven maintenance services, we provide customized plant reliability services to prolong equipment life and reduce required maintenance on critical equipment. Our services include:

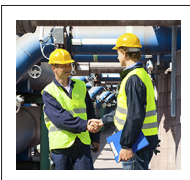

- High Velocity Hot Oil Flushing (HVOF)
- Chemical Flushing
- EHC Flushing
- Chemical Cleaning
- Material Handling
- Fluid Reconditioning
- Fluid Analysis
- Filter & Breather Upgrades
- Reservoir & Tank Cleaning

Pre-Commissioning Services

We are your global pre-commissioning service partner that ensures smooth startup of your systems. An internationally recognized top contractor for large EPC companies, we provide quality, engineered and safe pre-op cleaning services, including:

- Air Blowing
- Steam Blowing
- Chemical Cleaning
- Degreasing
- Hydrolazing
- Hydro Testing
- High Velocity Hot Oil Flushing
- Surge Flushing
- Pipe Stress Analysis
- Engineering Design

Embedded Technician Program

Our Embedded Technician Program that places local plant technicians inside customer facilities to maintain equipment, recommend service schedules, and execute pre-commissioning and plant reliability service programs. MLA & MLT trained personnel perform the following services in your plant:

- On-Site Reclamation of Hydraulic Fluids
- Air Breather Supply and Replacement
- Oil Filter Supply and Replacement
- Oil Sampling
- Oil Sample Report Review
- High Velocity Hot Oil Flushing
- In-Line Filtration, Dehydration and Varnish Mitigation
- Documentation, Maintenance Reporting, Cost Savings Analysis
